

ENRICO

CYCLE > medium

FIELD BEAN

Black

Alternative

High productivity

Resistant to cold

FEATURES

PHENOTYPE

Seed	medium-small/oval/black
Flower	white/melanin patch present
Plant type	erect
Plant height	100-110 cm
Habitus	alternative
Cycle	medium

BIOTIC AND ABIOTIC STRESSES

Cold	good resistance
Water stress	good resistance
Lodging	excellent resistance
Rust	good tolerance

QUANTITATIVE AND QUALITATIVE TRAITS

1.000 seeds weight	350-400 g
Proteins	25-27%

SOWING DENSITY

Germinated seeds/m²

	October	November	December	January	February	March
Northern Italy	35-40	35-40	40-45	40-45	45-50	45-50
Central Italy	40-45	40-45	45-50	45-50	50-55	50-55
Southern Italy	-	35-40	40-45	40-45	45-50	45-50

For grass manure, increase the number of seeds per square metre by 50%.
